

Can I get back all the sounds of life?

yes

Hear more

Phonak's exclusive SoundRecover technology brings back all the subtle sounds that complete life's rich soundscapes. These include whispers, leaves falling or the sizzling of food in a frying pan, and more importantly, fundamental elements of speech.

Understand speech better

Many sounds we need to understand speech are high-pitched. A hearing loss causes you to miss some of these subtle but important sounds, making speech difficult to decipher, especially in noisy situations. With SoundRecover you will hear all these important speech cues and understand better.

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit. Life is on.

All the sounds of life

Unveil the full spectrum of sounds

Do you recall the sound of birds singing, leaves rustling or raindrops? Do you miss children's voices or hearing your loved one whispering in your ear? Audéo YES brings back all the sounds that make life so rich. The unrivalled technology of Audéo YES lets you hear the full spectrum of sounds – no matter what your hearing loss.

Express yourself with stylish design

Audéo YES offers more than high-tech. It is comfortable to wear and matches your individual lifestyle. Its award-winning design comes in 17 different color combinations. What's more: Audéo YES is incredibly small – in fact, it is the smallest wireless hearing system in the world.

Get connected to the wireless world

Audéo YES is more than a hearing system. Connect it to electronic devices such as your mobile phone, your TV or your computer and enjoy all the advantages of modern wireless communication.

Do you want to know more about Audéo YES? Just ask your hearing care professional. The following pages provide you with a quick overview of the unmatched benefits of Audéo YES.

Can I understand even in background noise?

YES

Imagine yourself getting out of a taxi onto a windy street and then moving into a loud restaurant. Audéo YES instantly recognizes different listening situations and automatically adapts to them. Audéo YES zooms in on speech and reduces background noise, so you can comfortably talk to your friends in a noisy restaurant.

Is this the latest technology?

YES

The automatic functionality of Audéo YES is enabled by the industry's fastest, highest-capacity audio-processing microchip. With this unrivalled technology, Audéo YES ensures best performance with the most comprehensive collection of features and options to guarantee clarity and comfort, no matter where your busy life takes you.

Can I connect to all my gadgets?

YES

Leading an active life means interfacing with telephones, televisions, MP3 players, computers or other audio sources. With Audéo YES you can fully enjoy all the advantages of modern communication and entertainment systems.

Unlike competitive products, which have no wireless capability or increase size to achieve it, Audéo YES makes no compromises. It is the smallest fully wireless instrument.

What's more, the myPilot command center offers you even more flexibility and convenience. It even allows you to choose to focus your hearing to the side or back for situations when you can't face the speaker, like driving a car or riding a bicycle.

Can a hearing system fit my personality and style?

YES

Audéo YES not only works great, it also looks great. The comfortable and stylish instrument is available in 17 color combinations. Color skins can easily be switched by your hearing care professional to create a unique look.

Innovative, award-winning design

- Audéo YES is attractive when shown, yet invisible when worn
- The tiny case and lightweight connector offer unrivalled comfort and discreetness
- The unique shape optimally aligns the microphones for best possible intelligibility in noises

Are you looking for a small, stylish and comfortable hearing system with the very best technology available? Ask your hearing care professional about Audéo YES.
